

CLUBS 2020-2021:

Scroll through this page to see a listing of over 100+ active clubs at PEA.

Academy Belly Dancing Society

ABS is a dance club where belly dance to modern songs as well as traditional belly dancing beats. Contrary to the name you definitely do not need abs (nor prior experience) to try out!! We're planning on hosting tryouts this weekend (if this poses an inconvenience to you, we can definitely work with your schedule). If you are interested in trying out, please email one of the co-heads so that we can send more information. Looking forward to hearing from you!!

Active Minds PEA

Active Minds is a national nonprofit organization dedicated to mental health advocacy for young adults. Our campus chapter seeks to make Exeter a more accepting and supportive community through opening up discussions surrounding mental health, decreasing stigma, and encouraging help seeking. We will host campus-wide events like guest speakers and start a website for weekly columns and stories.

Activism in Art

Do you want to speak up about social justice issues that you feel passionate about? Do you love spoken word, writing, music, dancing, or singing? This club, Activism in Art, is dedicated to using different art forms to address issues that affect the people of the Exeter community and beyond.

Activism in Art is a club for artists (both aspiring or experienced - whether you are interested in dance, music, writing, speech, visual arts, or fashion) AND activists. Our goal is to use our artistic talents to raise awareness on topics you care deeply about or would like to speak out for, including the environment, race, gender, or sexual assault.

In the past few years, we have teamed up with the Lamont Gallery to have an annual exhibition with the works we have created through the club. We are planning to continue our project this year, either virtually or physically.

Join Activism in Art for deep conversations about current events, inspiration for artworks, and meet new friends!

Our goal this year is to have 2-3 projects working with the Lamont Gallery to display all your works of activism, where people can see what we've been working on each term

African Students Association

ASA (African students association) invites those who identify as African, have ties to their African roots and also seek to explore and strengthen their ancestral ties to Africa to join our club. We aim to create an open space for dialogue to grow and strengthen the bond between the African community on campus. Celebrating the richness of culture, language, food, etc of the different African countries represented on campus.

Afro Shade

Afro Shade is an afrobeat dance team on campus. Afrobeats originated from Ghana, but the style is anchored in West African music, particularly highlife music, American jazz, and funk are also added to the mix. This creates a hybrid sound from across continents.

Afro-Latinx Exonian Society (ALES)

ALES is a club dedicated to discussions about Black and Latinx history, issues, and culture. Everyone (regardless of racial identity) is welcome to join us for good fun and great conversations! In addition to discussions, you can also expect to learn more about advocacy and how to transform your passion for these issues into action. We are also proud to be a space for Black and Latinx students to heal, find support, and connect with one another.

Architecture Club

We're the coheads of Architecture Club! Our club advisor is Ms. Taylor, the campus Architect. As one of the oldest preparatory schools in America, our school has amassed a great number of resources as well as an extensive history. During our club meetings, we will learn about the architecture occupation, get hands-on experience with practicing architects, and provide input about what we'd like to see in future buildings.

Art for Mental Health

Art for Mental Health is a new club that aims to use art as a way of self-expression and healing. This is a low-key club where you can spend time doing whatever art you like.

ARVRA

ARVRA, or Augmented Reality / Virtual Reality Association, is a group of students who work together to bring AR/VR technologies into our lives! From experiencing virtual reality to creating PEA's own virtual tour, ARVRA is the place to go for any AR/VR activity!

Asian Voices (AV)

Asian Voices is a community for all Asian-identifying students! This term, we'll be alternating between discussion meetings and some casual, fun opportunities to get to know each other.

Association of Low Income Exonians

ALIE, the Association of Low-Income Exonians, is a club dedicated to bettering the lives of Low-Income students at Exeter. We host our meetings to allow these students to share their experiences and learn how best to navigate life at a wealthy place like Exeter. This includes everything from social life to assistance programs to making connections with the faculty on campus that can help make the Exeter experience easier for Low-Income students.

Astronomy Club

Astronomy Club is an academic, science-focused group that promotes the study and enjoyment of all things related to the science of astronomy, including observing, instrument making, and data analysis.

Badminton Club

Hi guys! Welcome to the Exeter badminton club! We are a group of athletes that love to play the game of badminton and would like to spread our knowledge about it! Come to learn from a top US player or have fun with your friends! We are low commitment, no experience necessary, and you may get addicted! We also play tournaments around New England (last year we went to Westborough, Mass) and competed against other public/private high schools, if you are interested too!

Baking Club

We bake any culinary treats you can imagine. Send in a recommendation and we'll get to baking.

Beat of Asia (BOA)

Beat of Asia - No audition dance group based on music and choreography by East Asian artists, with a focus on K-pop. Open to everybody, regardless of identity or dance experience. Join us for a fun time with the BoA fam!

Biology Club

Biology Club is a community of students interested in the scientific study of life. In our club, students engage in compelling research projects, learn from distinguished researchers across many biological fields, and hold thought-provoking discussions. For fall term, we are scheduling webinars with professionals making breakthroughs in COVID-19 research and our own amazing biology faculty. We also host the USA Bio Olympiad (USABO) competition.

Bob Ross Breakfast Club

Bridge Club

We play the card game bridge! We will not be meeting this fall, but that gives you time to learn how to play if you don't know already! Here is a link:

<https://www.youtube.com/watch?v=2IomnCvxWzM>

Catholic Exonians

Catholic Exonians is a group of students interested in learning about Catholicism and growing in their faith. We meet weekly at 9AM on Sundays over breakfast to discuss the faith, Church history, theology, and Scripture. When we are able to and the health conditions permit, we will also attend Mass together. The club can also help students seeking confirmation at Exeter. All are welcome!

Chemistry Club

Chemistry Club explores how microscopic processes shape the world around us. Through labs and discussions, we look at the chemistry behind industrial processes, natural phenomena, and various properties of materials. Whether you're a pyrotechnic or not, we look forward to having you join us.

Chess Club

Chess club typically meets in Grill, where anyone (regardless of experience) is free to drop in and play. For now, we will be hosting our meetings online, but we will still meet weekly so come join us! We also attend multiple tournaments including Nationals and occasionally have special events (like a GM simul).

Chinese Language Society

Chinese is known on the US department of state language scale as the hardest language to learn. Often times, just language instruction is not enough to reach fluency. For dedicated and passionate Mandarin Chinese Language learners, the Chinese Language Society will supplement in-class instruction with fun and engaging competitions through written and spoken Mandarin.

The Chinese Language Society will allow Chinese students and speakers alike to practice their Mandarin Chinese outside of a classroom setting and work on their public speaking skills. In addition to speaking competitions, club members are encouraged to participate in essay writing competitions.

Christian Fellowship

Classical-Orchestral Dedicated Activities (CODA) Club

If you want to listen to and learn more about classical music, join Coda club! We will listen to and discuss composers such as Beethoven, Chopin, and Ravel, and play games such as “name that tune” or “finish the melody”! Possible conversations include discussing *how* and *why* music makes us feel, and the pros and cons of different instruments. Join us to gain new and exciting musical perspectives! We will be meeting on zoom (7:00 pm on Wednesdays) for now, but in person when restrictions allow. No experience needed!

Costume and Cosplay Club

In this club, we explore the art of cosplay and costume building. We hone our skills and explore new ideas and build off of each other.

CSO (Chinese Student Organization)

欢迎来到CSO! Chinese Student Organization is a place for Chinese students to come together and build community. We celebrate holidays together, host activities like hot pot dinners and field trips to Andover, and have fun.

Cube Club

Hey there! We are a group of people who solve Rubik's Cubes for fun, come if you would like to learn how to solve one, or if you already know how come to learn and compete! We always love to have new people come and learn.

Daniel Webster Debate Society

The Daniel Webster Debate Society (DWDS) is the oldest secondary school debate team in the United States, dating back to 1807. We focus on parliamentary debate, but debaters of all experience levels and backgrounds are welcome. A parliamentary debate round consists of two teams of two debaters attempting to convince a judge that their arguments are stronger than their opponents. Each person gives 1 to 2 speeches ranging from 3 to 8 minutes. Parliamentary debate focuses on logic, creativity, persuasive speaking style, and knowledge of current events. Outside of improving your argumentative skills, participating in DWDS will allow you to join a community of passionate, intellectually curious debaters. We are one of the largest and most prominent clubs on campus, and we welcome all students, regardless of skill level.

Democracy of Sound (exeter)

Democracy of Sound (exeter) is a sound-art-design collaborative that intersects the creative, imaginative, immersive, and neuro-diverse to radical levels of invention and performance, making installations and experiences that activate spaces on campus that dispel belief.

Democratic Club

DRAMAT

Welcome to DRAMAT! We are the student-run theatre club on campus, with the goal to make theatre accessible to every student! Join DRAMAT to act, direct, or support your friends from the audience. Joining the email list will keep you updated with important information such as audition slots, director applications, and show times!

Entrepreneurship Club

Launch your own startup! Become an entrepreneur! We will help you create your own business, with the chance to pitch at competitive startup contests like the Diamond Challenge and the Conrad Spirit of Innovation. With training and resources about marketing, finance, pricing, and more, we will teach you to be an entrepreneur! (No experience is required.)

Environmental Action Committee

The environmental action committee is a club that works on projects to make our campus and wider community more aware of climate solutions and tries to keep Exeter sustainably minded. In the past we have brought terracycling to campus and worked with the PEA bookstore to

promote sustainable products. Although we will be meeting virtually this term, we are still hoping to continue our work to the best of our ability. This fall we are planning to promote reusable sporks on campus to limit plastic waste from to-go meals and increase our online presence by making a website to help educate our classmates about climate issues.

Environmental Proctors (E-Proctors)

E-Proctors are advocates for sustainable living on campus. Other than inspiring their dormmates to recycle and conserve resources, E-Proctors implement and are responsible for environmental projects in the dorms, like composting. The ideal E-Proctor is proactive and committed to making Exeter a more sustainable community.

Ethics Forum

Ethics Forum is a club dedicated to exploring all sorts of modern ethical issues in Harkness-style conversations. We meet at 5PM on Sundays, and will use that time to dive right in to case studies about ethical consumerism, research, government, and just about every other area you can think of.

Exeter Association of Rock (EAR)

Exeter Business Club

Exeter Business Club is a career-technical student organization dedicated to providing our members the opportunity to learn, explore, and experience business and leadership through our various competitions, projects, and networking opportunities. Not only do we hold weekly meetings where we discuss business principles, invite speakers, and prepare for the FBLA and DECA State and National competitions, we also organize interscholastic business conferences, attend collegiate conferences, and visit numerous startups and companies in the Boston area!

Exeter Climate Lobby

Exeter Climate Lobby is a group of Exonians who advocate for strong, equitable climate policy. We attend climate strikes, write to our elected officials, and meet with legislators. If you're concerned about climate change and want to take real ACTION, this is the club for you!

Exeter Computing Club

Exeter Computing Club, or ECC, is the hub of all things computer science and technology at Exeter. We are organized into three main groups: Project, Competition, and Machine Learning group. Members of Project Group learn new coding skills and apply their knowledge to work on cool real-world projects. Members of Competition Group learn all about algorithms and gain the skills they need to take on the USA Computing Olympiad. Members of Machine Learning group will learn about ML techniques and build AI systems in the real world. No experience required for any of these groups! You don't have to have any computer science knowledge to join. Feel free to come join if you need computer science help as well!

Exeter Culinary Association

If you're looking for a break from d-hall or a place to polish up your culinary skills, come to Exeter Culinary Association! (aka cooking club) We make delicious vegetarian meals every week. Good food & bad music.

Exeter Cybersecurity Club

Exeter Cybersecurity Club teaches about computer science and ethical hacking, including web exploitation, cryptography, reverse engineering, and forensics. We organize the annual peaCTF, a cybersecurity capture-the-flag competition where thousands of students gather online. We aim to provide a platform for teenagers to explore their passion and refine their skills in the growing field of cybersecurity. Check out our last year's event at <https://www.exeter.edu/news/exeter-students-cybersecurity-event-smash-hit>, and join us now in spreading cybersecurity knowledge to students around the globe.

Exeter DnD Club

Exeter DnD club's mission is to give Exeter students the opportunity to experience the ultimate table-top tabletop role playing game: Dungeons and dragons. This year the Dnd club will be using the west marches format, wherein all members play in one big world. join the Adventuring guild of Havthul and explore the fully home-written fantasy world of Alohr. enjoy the thrill of creative story-telling with friends, new and old. Join the club for more information. no experience required.

Exeter Economics Club

Exeter Economics Club is split into a discussion group and a competitive group (ECOMP). The discussion group meets once per week for an hour to look at current events through the lens of economics, emphasizing concepts and real-world impacts. Some topics this term will include the Federal Reserve's response to COVID-19, the US's fiscal stimulus package, Universal Basic Income, and big tech companies. The ECOMP group prepares for end-of-year competitions by learning mathematical models and more advanced economic concepts. We will cover the laws of supply and demand, production, different forms of competition, economic indicators, the business cycle, and economic stabilization. This group will loosely follow the AP Macro/Microeconomics curriculums so you can take those exams as well. Our current plan for this group is to send out material for you to look through at your own pace; we will be available to help with any challenging material.

Exeter Engineering Club

Exeter Forensics

Exeter Forensics is a nationally ranked debate team focused on NSDA Public Forum and Lincoln Douglas. This type of debate focuses on the quality of research and evidence presented in round to evaluate arguments on a topic announced at least a month ahead of the tournament. While we only officially started last year, our team has qualified to all three national debate tournaments and ranked top 50 in the country. However, no experience is necessary to join, and you can join at any time! We attend 5 to 6 local, state, and national tournaments each term suited for a variety of skill levels. For more information and to join our discord, go to our website at phillipsexeterforensics.weebly.com.

Exeter Investment Society

Learn to invest like a pro! Our goal is to make financial education more accessible. We teach fundamental investment concepts such as different types of assets and how to analyze companies, and build off of them throughout the year in a collaborative, large group setting. Throughout the year, we set up multiple (fake money) investment simulators for a fun way to compete amongst the club and participate in REAL TIME TRADING to improve skills! We also compete in the globally renowned Wharton Global High School Investment Challenge. Along with all of this, we will be providing members with multiple opportunities to hear from executives in the field of finance/investment. Welcome to the Exeter Investment Society!

Exeter Jewish Community

Almost every Friday night, the Exeter Jewish Community gathers together to light Shabbat candles, bless the wine and challah, sing a few Jewish songs, and then enjoy Shabbat dinner together. The EJC is a diverse, welcoming, “come as you are” kind of group. And Shabbat Dinner is a relaxed, fun, and enjoyable way to end a hectic week at PEA. Everyone is welcome – you can bring a friend or two with you if you like – or come to meet new friends.

Exeter Off Planet Society

EOPS was founded three years ago to educate and inspire our generation about the future of outer space and how they can be involved in it. Among other projects, we’ve created several videos and written a handbook as in-depth resources for students interested in space, all compiled in our website. We also host discussion meetings with scientists, some of which can be found on our YouTube channel along with other interesting videos.

Exeter Origami

Hi! We are people who enjoy folding origami! In the past, we did projects like figures, tessellations, modular origami, and even more! We even had a field trip and went to MIT's origami convention. This year, we want to continue our origami adventure as well as going into more topics like designing origami and CP (crease patterns)! We welcome folders and enthusiasts from all levels; please join us as we sail our boat into the unknown!

Exeter Photography Club

Welcome to Exeter Photography Club! We're really excited to run the club this year even in the midst of the pandemic. No need to worry if you don't have any gear, you're welcome to use your phone camera or just tag along. This term, we encourage you to go outside and take pictures so that we can share your photos during our Zoom meetings. We hope that you will join us in our mission to keep the passion for photography alive on campus despite the limitations brought upon us by the pandemic. We look forward to seeing you during club night!

Exeter Pinoy Society

The Pinoy Society is a club for Filipino and non-Filipino students interested in creating a close community while indulging in Filipino culture, food, movies, and more. The club also takes part in events hosted by the Office of Multicultural Affairs and the Asian Advisory Board.

Exeter Rescue Team (LiNK)

Exeter Socialist Union

The mission of the Exeter Socialist Union is to educate our community about political theory, the history of socialism, and the current struggles of the working class. Our curriculum includes guest speakers, mutual aid opportunities, and interactive workshops. ESU is open to Exonians of all backgrounds and political ideologies. We believe in unity between oppressed groups and plan to collaborate with other Exeter clubs to discuss the intersections of gender, class, race, and the environment.

Exeter Workout Club

Hello Exeter! We are the Exeter Workout Club, or EWC for short. This term/year, we will be helping you reach your fitness goals, whether it be from the comfort of your home or on Exeter's campus. We will be providing you with a specialized program catered to your specific needs whether that be to lose weight, to stay fit without a gym, etc. Like in the past, we will be holding club meetings but with proper social distancing requirements and a maximum meeting attendance of 10 people. If you would like to join our amazing clubs, feel free to contact the club heads.

Exonians Against Sexual Assault (EASA)

EASA is a student-led group dedicated to educating students and spreading awareness about issues surrounding sexual assault. In advocating for healthy relationships and habits, we hope to make campus a safe space for everyone. In meetings, we discuss current events from the media, as well as the culture on campus. In addition to discussions, we work with the administration and faculty to better understand our role as peer educators, and together we work to continue conversation within the entire community.

Exonians with Disabilities and Different-Abilities (EDDA)

Two hundred thirty-seven years. That is how long Exeter students went without having a disabled student group on campus. We were founded two years ago on the principle of making the previously invisible visible. Of making space for disabled and differently-abled students to find community and thrive that is run by disabled/differently-abled students and faculty. We don't need to be silent anymore.

Feminist Union

Feminist Union discusses topics surrounding feminism and the intersectionality of feminism, providing a safe space for Exonians of all genders to share their thoughts and ideas. We also hold fundraisers throughout the year for organizations upholding women.

Fight Club

Fight Club is a confidential peer-based grief support group for those who have lost someone special in their lives. We meet weekly on Wednesdays from 6:45 to 7:45 to discuss grief, life, and loss, to just hang out, and to share a meal (once we're able to). There is no obligation to attend -- Fight Club is here to be a community of friends and a support structure to lean on.

Gender and Sexuality Alliance (GSA)

Gender and Sexuality Alliance (GSA) is club that talks about anything regarding the LGBTQIA+ Community. GSA is open to everyone.

Geography Club

The Exeter Geography Club aims to promote a deeper understanding of geography by preparing for interscholastic tournaments, exploring geographic topics, and playing quiz bowl. Check it out if you are interested in the world!

Go Club

We're a low-commitment club that celebrates one of the most ancient board games—Go. Come to our club for interesting Go puzzles, exciting games, or simply learn how to play! No prior knowledge needed.

History Club

Hong Kong Club

Spreading Hong Kong's unique culture through conversation and open dialogue.

Imani

A co-ed hip-hop dance group where all of the dances are choreographed by our members. Auditions are held every term and there is no experience necessary. We perform at assemblies and pep rallies!

In Essence

One of Exeter's all-girls acapella groups! We typically sing fun pop songs, classic rock, or any good song the group wants to do. We'd love to have you audition!

InMotion

Exeter's co-ed no-audition dance group that focuses on choreography inspired by hip-hop, funk, and lyrical among other styles. Previous performances include choreography from studios like The Kinjaz Dojo and Millenium Dance Studios, and artists such as Brian Puspos, Sorah Yang, Alexander Chung, and more. All levels of dance experience are welcome. Join us for a fun jam session!

Indigenous Reconciliation Club

Join us in fostering strong relationships and collaboration with indigenous leaders, raising awareness about indigenous injustice, celebrating native cultures, and working to decolonize our community. Let's learn together and improve our community.

International Student Alliance

The International Student Alliance is an affinity group for international students at the Academy. We aim to bring together the different cultures and backgrounds of students to celebrate our diversity. During club meetings, we will discuss how to process and take part in conversations regarding current events going on in America as international students, while being culturally aware and inclusive.

Japan-America Society (JAS)

A cultural club for students of Japanese heritage or students interested in Japanese culture. Join us weekly for dinner, snacks, and good company. Join us for termly events for (significantly) better dinner, better snacks, and same company.

Ké Kontan

Ké Kontan is an a cappella group exploring various genres, particularly jazz!

Korean Society

Korean Society is a great place to meet Korean Exonians and Exonians interested in Korean culture; we are open to all! Usually, we meet once a week over dinner (super low commitment), but, because of the pandemic, we'll instead be meeting weekly over zoom. Once a term, we go to Sura, a Korean-BBQ restaurant in Boston, and eat A LOT of food. Unfortunately, we may not be able to go this term, and we'll likely instead be watching a K-drama or a movie outside. Please consider joining us!

Legal Society

Legal Society is a discussion group about the law. In this club, you'll look at a range of concepts, cases, schools of legal thought, as well as some scholarship. We will also hear from some guest speakers. Legal Society meets weekly.

Linguistics Club

Welcome to Linguistics Society, where we delve deep into the mysteries of human communication, studying sound formation, cryptology, ancient language reconstruction, and much much more. Are programming languages real languages? Can animals understand languages? In what ways and how quickly do languages change? How do you even begin to read a language if neither the writing system nor the language itself is familiar to you? All these questions and more will be answered. Join if you're passionate about modern languages, or want to learn how to decipher like Indiana Jones, or want to flex your logic and computational reasoning skills. Each year, we participate in NACLO, a computational linguistics competition that requires no previous knowledge. We also work on our own constructed language, or conlang which, after learning the basic building blocks of a language, we create together during our club meetings.

Lionettes

Magic the Gathering Club

We play weekly Magic: the Gathering tournaments in all formats: limited, modern, standard, etc. Competitive, casual, and new players are all welcome!

Makers of Exeter

Makers of Exeter is a place for the creators, thinkers, and makers of Exeter to come together to collaborate to create a maker community. In this maker community, we work to uplift each other through supporting small design lab projects and allowing students to have a student support network within the design lab. Essentially if you are into making things and want a community of others who also enjoy making this is the club for you!

Math Club

MATTER Magazine

Come join MATTER Magazine, Exeter's sole STEM student publication! We have been dedicated to making science more relevant and accessible to the Exeter community since 2009. Join if you are interested in STEM, writing, layout design or art! You'll learn to do research, write articles, design issues, and create graphics! No experience required.

Medical Anthropology Club

In recent years on campus, there has been growing interest in the STEM fields, and within that science category, many students have taken an interest in medical science. With the world's current state, I believe we are all currently being directly affected by medical related issues. Plus, I want to spotlight the health care workers, especially one's people don't think of with these challenging times. Most people think about traditional doctors and surgeons as medical professionals but often forget the other essential workers (nurses, physical therapists, psychiatrists, anesthesiologists, etc.). However, science is still a field that is still commonly dominated by white men, with prevalent racism and sexism. I want to combine these two issues and have several females or other minorities as monthly speakers. I think that this could educate students on medical topics and help break down a stigma and get awareness for the people in health care that so often go overlooked.

Mock Trial

The Phillips Exeter Academy's Mock Trial Team was founded in 2011. Since then the team has claimed seventeen individual titles, five all-around state titles, and a top-ten spot at the National High School Mock Trial Championship. Every season, the club is composed of roughly 30 members, split into three different teams. In the teams, students work together, playing both lawyer and witness roles. Lawyers work on presenting opening statements and cross examinations during trials whereas witnesses work on developing their character in direct examinations. Throughout the year, all club members collaborate to analyze several different cases for the three tournaments we are typically involved in: the Yale Bulldog tournament, BG, and states. Members become familiar with courtroom presentation, public speaking, and develop strong bonds with others. As one of our past coheads put it, “When I first started Mock Trial, I considered quitting. The material was dense, the objections were confusing, and my understanding was foggy. But I stuck with it. And I’m so glad I did. Mock Trial has truly been one of the most positive influences on my life during my time at Exeter. My teammates have become some of my greatest friends, and the cases have become some of my favorite problems to work through. I admit the cases are difficult, the hours are long, but I promise, if you give it a chance, Mock Trial can, and will, change your life.” — Samuel Farnsworth

Model United Nations

Model United Nations is a simulation of the real-life United Nations designed to teach its members about speaking skills, global policymaking, and effective persuasion. Its members host PEAMUN, an annual conference hosted on-campus, and also attend Model UN conferences like HMUN (at Harvard), BOSMUN (at Boston University), and DARTMUN (at Dartmouth). This year, our club will have two optional synchronous meeting times to choose from -- one on Wednesday and one on Friday. We will also offer an asynchronous track for those who need it.

Multiracial Exonian Society (MRES)

This club is a space to explore the accomplishments and struggles of multiracial people in the past and present, as well as explore our own identities and experiences as multiracial Exonians. We are not an affinity group, so everyone, of all different racial identities, is welcome to come!

Muslim Student Association

Outing Club

Greetings Adventurers! Do you love hiking, camping, building campfires, and exploring trails and mountains ridges? Do you want to experience going out beyond the Exeter bubble during the school year? If so, the Outing Club provides ample opportunity to do so; a couple of times every term, we travel across New Hampshire, mostly to the White Mountains, and embark on hiking trips with a small group of students. In the past, we have done day trips to Mount Monadnock and Franconia Ridge, camped by Crawford Notch overnight to scale Mount Washington the following day, and stayed in a cabin by Lonesome Lake in the winter to go sledding and snow-shoeing, and to bask in a stove heated hot-tub!

OutKast

OutKast is the all-male step team at PEA. Founded over 20 years ago, OutKast is the first and longest running step team. Step is a form of dance culturally tied to the black community. Brought to the Americas through the slave trade, step has become popularized with black fraternities and sororities across the United States. Step is the mix of both dance and music, where one's body becomes the instrument. OutKast performances are loud, energetic, and the sight for any and all school performing events. We usually practice twice a week.

PEAN

Welcome to PEAN, Exeter's yearbook committee! PEAN is open to anyone and everyone; experience with InDesign and Photoshop is amazing but not required by any means (we will teach you!). We are a community of artists who think deeply about how meaning emerges from design, and you can get involved in a way that aligns with YOUR interests. If you love photography, you can become a PEAN photographer (we have cameras available to lend!). If you love graphic design and organizing photos, you can become an Ads, Layout, Sports or Senior Pages associate and help design pages in each of these sections. We also need artists to draw sketches to be incorporated into the book, and business managers who deal with logistics. All of your efforts will go toward building a memorable yearbook that will go out to the entire Exeter community and be perused for years and years to come. PEAN represents the themes, people, and events of the year, so we need YOUR voice to make it complete.

Peer Tutoring

Peer Tutoring is a place for Exonians to give and receive help from each other in assignments and subjects! This year, peer tutoring is going to be running from 4-6 PM EDT and 7-9 PM EDT from Sundays to Thursdays. Zoom links and more details for each session are available on Exeter Connect, under Academic Support. To better accommodate students in different time zones, we've also created a Discord server for tutoring.. Come join, whether you're looking to tutor or be tutored! We hope to support as many students as we can -- if you're interested in tutoring hours earlier in the morning, please reach out!

Pendulum

Pendulum is Exeter's premiere visual arts and creative writing club! We meet over breakfast to discuss good reads, cool art we've seen, and plan an annual magazine featuring the best of Exeter's creatives. Come to try out art/writing for the first time, get feedback and hear about opportunities from experienced editors, and make new friends!

Physics Club

Come to Physics Club to learn about the nature of our world. We'll have discussions about a variety of topics and prepare for competitions like $F=ma$ and USAYPT with students across the globe.

Ping Pong Club

We play Ping Pong in the game room on Fridays!... Now, we just send out fun Ping Pongy things.

POMS

POMS is Exeter's cheerleading group! We boost school spirit while having fun, performing at pep rallies and Exeter vs Andover football and basketball half-times. We meet on Sundays, and welcome everyone to try out!

Powerlifting Club

Whether you have been lifting for years or have never touched a barbell in your life if you are interested in improving yourself through weight-training, this is the club for you. Powerlifting club works with its members on an individual basis and can give whatever you want to get out of it. Here are a few examples of what you may get out of your experience: learning how to safely and effectively perform lifts, creating detailed personal workout programs, meeting new friends/ lifting buddies, tracking progress and being held accountable, and finding a supportive community that celebrates the success of its members at every stage of the lifting journey.

PRECISION

All female Step Team

Psychology Club

Come join Psychology Club! We are a low-commitment club dedicated to learning about and discussing psychology. We can talk about whatever interests you, from mental health, to bias, to dreams. No experience is needed! We also have a few projects planned which you can take part in.

Random Acts of Kindness

Random Acts of Kindness is a fun, relaxed space where we plan surprises for our peers, faculty, and staff. We come together each week to talk about how to uplift our community, particularly those who don't always get the attention they deserve.

Reel Life Productions (RLP)

Reel Life Productions (RLP) is PEA's filmmaking club. We work on projects ranging from short films to coverage of school wide events. Club members will have access to all the various film equipment and editing software the Academy offers. This year, we are planning to host occasional, socially-distanced movie screenings for the entire community. If you are interested in filming, acting, directing, film editing, or scriptwriting, we encourage you to join us.

Republican Club

Republican Club is a place where everybody is welcome to come and discuss current events, politics, and policy. This is a pretty big year in national politics so if you're looking for a place to talk about it, don't hesitate to swing by.

Robotics Club

At Robotics club, we combine fundamental design skills with collaboration and innovation. Weekly information sessions introduce key concepts to beginners and keep experienced members sharp. Collaboration skills develop naturally as teams work together to solve challenges in our three robotics competitions, offering a place for all skill levels. We also have access to a fully stocked design laboratory. With tools like laser cutters, 3D printers, and a wide array of standard machine shop tools, any idea you have can become reality.

Russian Language Society

In this club, we will cook Russian food, watch movies and read stories, discuss Russian culture, and practice speaking Russian.

Science Bowl

Science Bowl is a trivia game played between five-person teams that quizzes subjects including math, physics, chemistry, biology, and earth science. Last year, we sent two teams to the regional competition in Connecticut, and both teams performed well, one of them even getting third place. If you're interested in learning about science, or very talented at any of these subjects, we hope you'll join us.

Science Olympiad

Science Olympiad is an American team competition in which students compete in 23 events pertaining to various scientific disciplines, including earth science, biology, chemistry, physics, and engineering. In the past few years, the Exeter Science Olympiad Slideshow has excelled in invitationals at Harvard, Dartmouth, and Brown, as well as the New Hampshire state competition. The 2020-2021 season will be Exeter's fourth year operating a Science Olympiad team, and we hope to win the state competition and make it to the national tournament.

Standup Exeter

A club featuring the funniest students at Exeter. At the end of each term, we host a massive show. And yes, we have samosas.

Student Council

Students Demand Action

Affiliated with Everytown, the largest gun violence prevention organization in America, Students Demand Action is a national movement of high school and college-aged volunteers fighting for the changes that will save lives. The Students Demand Action chapter at PEA is dedicated to both education and action. We hope to better inform our communities about gun violence and its undeniable presence as well as creating meaningful change through registering voters and contacting policymakers.

Sunrise Exeter

The Sunrise Movement is a national climate justice organization, building an army of young people to create millions of sustainable jobs and stop climate change. The movement is connected to a web of organizers, activists, and public officials across the country. It strives to build interpersonal, creative, and technical skills through networking, writing to newspaper editors and politicians, and artistic compositions. PEA's chapter will work on phone banking, collaborating with local hubs, and preparing for strikes and lobbying. Political activism through Sunrise will have a particular focus on racial injustice and colonialism linked to climate change.

Super Smash Brothers Club

A club for the Smash Bros community of Exeter. Once campus opens up more, we'll be holding regular tournaments, open to everyone regardless of skill level.

Surf Club

This is a group for anyone interested in surfing. We go on multiple trips per year to "The Wall" at Hampton Beach. All skill levels are welcomed and beginners are encouraged to participate. If you know, deep down, that you are a surfer at heart, you will want to be a member of this club. Boards, wetsuits, transportation, instructors, lifeguards, and pizza are all provided. Join our Zoom to ask us questions, sign up for the club, and watch surfing videos with us.

The Admissions Tour Guides

The Tour Guide Club is an exciting opportunity for Phillips Exeter students to represent and promote Exeter to prospective students and their families. Tour Guides will be able to help prospective students and their families gain a better sense of our inclusive community and the incredible opportunities available to students both in and outside of the classroom. Tour Guides will be able to share their personal experiences and information about campus life, history,

traditions and achievements of the Academy through: -Conducting campus virtual tours - Participating in virtual recruitment events -Supporting the admissions social media efforts - Connecting with prospective students via email and postcard writing Please note that these are just a few of the ways we plan to engage prospective students and their families. As we continue to build our virtual engagement opportunities, we will be seeking input and support from our tour guides. Tour Guides play a critical role in helping a student be able to identify which school is the best fit and we thank you for your interest in supporting admissions and students as they navigate the high school process.

The Asian Magazine

The Asian Magazine is a literary and arts publication dedicated to amplifying the stories and perspectives of Asian-identifying Exonians. We publish two to three times a year and host writing workshops, discussions, and fun events.

The Exeter Review

The Exeter Review was born out of a feeling that although this intellectual majority is not necessarily harmful, if many people in a set group happen to share common views then nobody is challenging and promoting tough discourse, contrary to Exeter's values of: "exacting inquiry and thoughtful discourse." It is in this context that The Exeter Review would be created with the goal of providing and promoting safe freedom of speech, diversity of thought, and a platform where all opinions regarding social sciences may be represented.

The Exonian

The Exonian is the oldest continuously-running preparatory school newspaper in America, founded in 1878. Operating as the free student press, The Exonian is not subject to prior review or censorship. Staff of The Exonian have the right to report on all topics that may be relevant, including those which may be controversial. The Exonian will not publish content that is defamatory or obscene. The Exonian is also a community, run primarily out of the newsroom in the Elizabeth Phillips Academy Center, which welcomes students from across grades. The paper publishes a weekly 10-16 page paper. The staff of the paper includes 30 editors, between 25-45 writers, associates from the other Business and Web Board, three wonderful advisers, and a significant body of contributors from across the Academy and the broader Exeter community. As previously alluded to, the paper is comprised of three main boards—the Editorial Board, the Web Board and the Business Board. The Editorial Board, comprised of section and layout editors, directs article production and print appearance. The Web Board updates the site theexonian.net weekly and manages long-term endeavors. The Business Board

directs all finances and outreach of The Exonian, including subscriptions and social media. Since its inception, The Exonian has published news, commentary, and content pertaining to the Exeter community. Since 2010, it has published content online.

The Exonian Business Board

One of the three main board of the school newspaper, The Exonian. We deal with all things money-related including things like managing finances, collecting advertisements from local businesses, getting subscriptions from parents and alumni, distributing the newspaper, and more! We are the only club on campus that earns revenue! Come to learn more about how running a business works and support our hard-working journalists behind the scenes.

The Exonian Web Board

The Exonian Web is the online component of our school newspaper, The Exonian. The Web Board is responsible not only for maintaining our website at theexonian.net, but also for the development of new digital projects such as the creation of a new podcast series! Web Board is a group for hardcore coders, graphic designers, artists, idea-makers, and anyone else who would like to play a role in The Exonian's online presence!

UNITE Coalition and Publication

We are the UNITE Publication and Coalition for Change. As a publication, we facilitate conversations on identity, race, and equity in our community by sharing the narratives and perspectives of fellow Exonians so that we may better understand each other. As a coalition, we offer an intersectional space for students of different cultures, races, religions, genders, and sexualities to gather in discussion. Our mission is to create intersectional dialogue, build empathy and awareness, spur action, and maintain accountability. We invite you to take part by joining the coalition!

Vietnamese Society

Interested in the DELICIOUS Vietnamese food, VIBRANT culture, and the AMAZING people in Vietnamese Society? Come check us out! We do everything from gathering to cook a Vietnamese feast from scratch (or our best attempt at doing so) to just sitting down with one another and getting to know about one another's backgrounds, cultures, and stories. Regardless of whether you identify as Vietnamese or not, this is a space where you can just meet new people, create new friendships, and learn more about one another, and the Vietnamese culture! Vietnamese Society is open to ALL, so feel free to pop by anytime, we would love to meet you!

WEVisionxPEA

Hello and welcome from WEVisionxPEA! Our goal is to inspire girls around the world to discover their full potential. Our writing team publishes personal essays about how we engage with feminism and pursues engaging articles like “The Black Female Activists Who Are Making History.” The design team exercises creativity and innovation to develop graphics and posts. The community outreach team works to connect WEVision with our surrounding community and beyond, planning events and conferences and interviewing amazing women from all walks of life. For example, we were able to talk with Jessica Jackson, who is a widely known lawyer, mentor of Kim Kardashian, and co-founder of #cut50, a White House recognized effort to decrease incarceration. In all our work, we aim to shine light on the amazing things that women are capable of accomplishing. We also seek to gain a better understanding of the experiences of women from various backgrounds, cultures and environments. Success can be defined in many ways and each individual's success is unique in its own way. All women's stories are worth sharing. Furthermore, WEVision welcomes ALL genders and ALL backgrounds to engage in discussions and to work hand in hand toward our goals. We do not require any experience in writing, design, or community outreach. We have an amazing board eager to mentor and guide you in your first steps as a member of WEVisionxPEA. Here, you'll be part of a big family, with friends all over the world. Come learn, grow, and create amazing work with the WEVision community! Stories can transcend into actions. WEVision may be starting with stories, but we believe that one voice can lead to more voices, more voices can lead to more impact and more impact will lead to more change. Together, we can increase awareness of the potential of women and encourage them to pursue their dreams. (maybe list what we're planning to do this term/year.

Word

Word is Exeter's poetry-writing and slam poetry club. We come together weekly to explore the creative process and the written word. We will also read and discuss poetry as a group, with occasional guest poets.

WPEA

In 1965, WPEA broadcasted its first shows throughout the town of Exeter. 55 years later, we're still making quality content produced by students, staff, and faculty. WPEA seeks DJs from every quarter and trains them to become proficient broadcasters as they share the music and stories they love with the Exeter community. A top-notch non-commercial educational radio station, WPEA aims to entertain, engage, and inform the Seacoast area and the world with unique student-run programming.
