

Math 2 Changes Summer 2024

Note that the numbers below refer to the August 2024 edition, unless followed by a ('23) in which case they refer to the August 2023 edition.

p.iv	added new student testimony
23	edited points, edited answer/commentary
32	added $t \neq 0$
45	unitalicized “rate”, edited commentary
49	italicized “collinear”
66	edited numbers for diagram in #67, edited answer/commentary
67	added diagram, reworded part (a) and reorganized problem, edited answer/commentary
89	italicized diagonal, unitalicized ”not”
90	added “(SAS)”
93	unitalicized “3 units left and 2 units up”
94	unitalicized “Kirby’s position is” “of time” and added parts
96	unitalicized “not” and added “(SSA)”
103	added units
107	italicized AAS, ASA, unitalicized in answer, added “(AAS)” and “(ASA)”
108	moved from #269('23), edited wording, edited answer/commentary
119	edited answer, unitalicized “Is”
120	moved from #108('23)
137	adjusted diagram spacing
139	adjusted diagram spacing
151	adjusted diagram spacing
152	adjusted diagram spacing
159	unitalicized
160	added labels, edited commentary
165	made continuation of #164
170	added proof ending marks, and added to reference
171	added proof ending marks, and added to reference
194	changed wording, changed to give a point C
209	removed reference in commentary to #322('23)
223	added definition of distance between lines
243	unitalicized
262	added labeling to diagram
263	edited commentary “intercept” instead of “coordinate”
269	edited commentary
271	edited commentary
279	adjusted spacing for diagram in #278
308	added scale to diagram, adjusted diagram spacing
309	adjusted spacing with diagram from 308
314	removed reference to #322('23) in commentary
321	removed reference to #322('23) in commentary
338	adjusted diagram spacing
378	unitalicized “not”
438	unitalicized sentence, kept centroid, concurrent italicized

Math 2 Changes Summer 2024

524	clarified isosceles
564	unitalicized “one”
578	added triangle symbols in front of triangle names
605	slight rewording, unitalicized about checking answer
616	unitalicized “any”
634	unitalicized number words and “no”
647	edited answer
652	moved from #752('23), replaced with question
664	adjusted spacing for diagram
665	adjusted diagram spacing
666	unitalicized “closest,” italicized “vertex”
696	added “With technology,” removed some data points, edited answer/commentary
698	adjusted diagram spacing from ('23)
740	edited problem, added part to determine Dundee’s distance
767	unitalicized “not”
779	edited commentary
792	added comment about technology to problem
799	slight rewording
800	fixed typo
815	added request for accurate diagram
819	unitalicized “verify this”
p.79	added #89 to definition of “diagonal”
p.81	edited “glide-reflection” definition
p.83	italicized “diagonal” in kite reference, added '22 definition
p.85	added “polygon” to reference
p.85	added QED to reference
p.86	italicized “polygon” in quadrilateral definition
p.90	separated definitions of vertex
270 -1	changed labeling, problem originally came after #108 which was moved from #269('23)
682 -2	adjusted diagram spacing
322('23)	moved to supplement

The following problems were moved to a Math 2 Appendix in Summer 2023. No edits were made in Summer 2024 except what is mentioned above. This Appendix was created as a place for problems that have been skipped in recent years due to limited class and homework time for our students. The numbering system indicates where they came from in our book, for example, 59-1 and 59-2 are problems that directly followed problem 59.

5-1	59-2	87-1	140-2	259-1	346-1	378-1	470-1	501-1
14-1	65-1	99-1	162-1	264-1	355-1	386-1	472-1	501-2
35-1	67-1	111-1	173-1	265-1	371-1	432-1	477-1	503-1
37-1	75-1	131-1	182-1	270-1	371-2	449-1	478-1	508-1
59-1	84-1	140-1	203-1	271-1	375-1	452-1	484-1	521-1

Math 2 Changes Summer 2024

525-1	560-1	639-1	646-2	674-3	706-1	805-2	813-1	820-1
536-1	580-1	641-1	646-3	678-1	742-1	811-1	813-2	820-2
548-1	608-1	644-1	674-1	682-1	754-1	811-2	813-3	820-3
557-1	608-2	646-1	674-2	682-2	805-1	812-1	816-1	820-4
